Chattanooga, Tenn.

## BOARDS TO RESUME PHYSICAL EXAMINATIONS

WORK STARTS MONDAY AND IS TO BE RUSHED.

List of Those to Be Called by Two Boards for the First Day.

City boards No. 1 and No. 2 will resume their physical examinations bright and early Monday morning, and many of the registrants have already received notice to report. The two boards were delayed in their work by the epidemic of influenza which forced them to discontinue examinations about two weeks ago. City board No. 1 reported they have examined about 10 per cent. of the registrants between the ages of 18 and 37. City board No. 2, however, reports they have hardly gotten started. Only about 150 men had been examined when they closed down for the time being. City board No. 3 was lucky enough to complete the examinations before the "flu" hit the town. Physical examinations of county board No. 1 registrants have been completed with the exception of those who have been unable to report on account of sickness. They will report as soon as they are able to be out.

City board No. 2 will call about 100 men each day for the physical examinations beginning at about 9 Monday morning. Half of the men for the day's quota will probably be ordered to report in the morning, while the

other half will report after dinner. Notices to report are being mailed to the registrants today.

City board No. 1 is planning to examine about 60 or 70 each day until all the men are examined. To avoid a crowd the men will report in small groups at different hours during the day. The following have been instructed to report on Monday:

William Skeens, Virgil Smith, J. Walter Ball, William Starnes, Matt L. Ballow, C. B. Taylor, Abraham Baron, Newman Townsend, J. H. Biddess, C. E. Truss, H. A. Brandon, John P. Spahar, J. S. Brice, C. N. Waters, Raymond Brody, John W. Wiggs, Ed L. Brooks, Harry Woods, John P. Brown, Robert Jameson, Lunsford Brown, Raymond Johnson, Wesley Carson, Raymond Kelly, Frank Laster, Obey Chapman, Benjamin Lindsay, Wm. Hays Clark, R. D. Duke, Jack Combs, Ernest Martin, C. S. Cowan, Phil Mathew, J. W. Davenport, John H. Moore, Man Dollar, Nick Mosely, George Davidson, John E. Bagard, Roy E. Bledsoe, Andrew N. Nave, Woody Faust, Buford R. Newton, R. D. Fetcho, Homer L. Nichols, Meyer Frank, H. M. Grossman, Virgil Hall, J. A. A. Pruitt, W. H. Harman, Ernest Putman, Isadore Harris, Cloung Ramsey, Isaac Hill, Robert W. McCoy, R. B. Renner, Louis Meadows, Wm. A. Barnett, John H. Love, Eddie Chisolm, Will Millers, Leonard L. Collins, Alfred Moore, Amos Curry, H. M. Cunningham, Wm. T. Durro, Robert P. Potter, Jake Edmister, John D. Bagard, R. L. Elkins, John Randolph, Edgar E. Ellis, Wm. Richardson, Harry B. Fisher, McKinley Rollins, J. E. Glasgow, John W. Sapp, Carl K. Grimm, Charlie Shropshire, Fred Harbin, Samuel Slabosky, Elkhart Harrison, Wm. Smith, Orlin Hovles, Wm. L. Sparks, L. B. Henderson, Deway B. Stephens, W. L. Hennegar, John J. Sullivan, Clifford Hill, Herbert Sutton, C. H. Hoyle, Wallace Washington, Nathan Jackson, John F. White, Nelson Johnson, Jarrett Jones, Matt Knox, Will Williams.

A second long list of registrants have been notified to report on Tuesday for their examinations. The following are the names of those called to report on Tuesday:

Henry Baker, Jr., Oscar L. McGhee, Wm. A. Barnett, Louis Meadows, John H. Love, Eddie Chisolm, Will Millers, Leonard L. Collins, Alfred Moore, Amos Curry, H. M. Cunningham, Wm. T. Durro, Robert P. Potter, Jake Edmister, John D. Bagard, R. L. Elkins, John Randolph, Edgar E. Ellis, Wm. Richardson, Harry B. Fisher, McKinley Rollins, J. E. Glasgow, John W. Sapp, Carl K. Grimm, Charlie Shropshire, Fred Harbin, Samuel Slabosky, Elkhart Harrison, Wm. Smith, Orlin Hovles, Wm. L. Sparks, L. B. Henderson, Deway B. Stephens, W. L. Hennegar, John J. Sullivan, Clifford Hill, Herbert Sutton, C. H. Hoyle, Wallace Washington, Nathan Jackson, John F. White, Nelson Johnson, Jarrett Jones, Matt Knox, Will Williams.

## NICK BUSH CAPTAIN

Commissioner Betterton Reads Statement Explaining Appointment.

Commissioner Betterton appointed "Nick" Bush captain of detectives at a salary of \$150 per month, at Tuesday's commission meeting.

In the statement made by Betterton yesterday an under-current of explanation was given for the appointment of Bush to the position.

"I have appointed Mr. N. P. Bush, formerly connected with the detective department of the city, to the position of captain of the Hamilton county, as captain in charge of the detective department, under the general supervision of Chief of Police Luckett."

"In making this appointment, I wish to state to this board, and to the public, the appointment is not made for political reasons, but for the purpose of connection with the Chattanooga detective department. Mr. Bush was a most conscientious and faithful officer, and as an executive officer in carrying out instructions and orders, perhaps no more efficient officer ever served the city."

In the next place, I want to appoint Mr. Bush, hoping that his appointment will be conciliatory toward a large class of our citizens, who since the strikes of last year and year before have regarded the police department as antagonistic to their interest. This is not the time nor the place to go into a review of the strikes and the disorder of riots and mobs that attended them. The police department on these occasions, under the law, had to maintain order and protect the city against all disorderly persons. In doing so, many of the strikers and those in sympathy with them, who were not law-abiding citizens, were antagonistic to the police department. Mr. Bush is a law-abiding citizen, and his appointment will prove to our laboring element that the city government of Chattanooga is not antagonistic to the law, but only determined to enforce the law and protect the peace and order of our city.

"I have fixed Mr. Bush's salary at \$150 per month, in consideration of the fact that he is not only to look after the general duties of this office, but to be actively engaged in the investigation of the general duties of the police department. Mr. Bush is a law-abiding citizen, and his appointment will prove to our laboring element that the city government of Chattanooga is not antagonistic to the law, but only determined to enforce the law and protect the peace and order of our city."

There is no occasion for panic. Influenza or grip has a very low percentage of fatalities—over one death out of every four hundred cases, according to the N. C. Board of Health. The chief danger lies in complications arising, such as pneumonia, which means a run-down condition—those who don't go to bed soon enough or those who get up too early.

HOW TO AVOID THE DISEASE. Evidence seems to prove that this is a germ disease, spread principally by human contact, chiefly through coughing, sneezing, or spitting. So avoid persons having colds—which means avoiding crowds—common drinking cups, roller towels, etc. Keep up your bodily strength by plenty of exercise in the open air, and good food.

KEEP FREE FROM COLDS. Above all, avoid colds, as colds irritate the lining of the air passages and render them much better breeding places for the germs.

Use Vick's VapoRub at the very first sign of a cold. For a head cold, melt a little VapoRub in a spoon and inhale the vapors, or better yet, use VapoRub in a benzoin steam kettle. If this is not available, use an ordinary teacup. Put a half-teaspoon of VapoRub in time to time—keep the kettle just slowly boiling and inhale the steam arising.

NO—Vick's VapoRub is the discovery of a North Carolina druggist, who found how to combine, in salve form, Menthol, Camphor, and such volatile oils as Eucalyptus, Thyme, Cinnamon, etc., so that when the salve is applied to the body, the ingredients are inhaled in the form of vapors. VapoRub can be had in three sizes at all drug stores. While comparatively new in certain parts of the North, it is the standard home remedy in the South and West for all forms of cold troubles—over six million jars were sold last year. VapoRub is particularly recommended for children's colds or colds, as it is externally applied and can, therefore, be used freely and often without the slightest harmful effects.—(Adv.)

## Dandruff Surely Destroys the Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single dandruff particle.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and gives you a sure remedy for it, no matter how much dandruff you have. This simple remedy never fails.—(Adv.)

## ABEL CONTESTS RIGHT OF POGUE TO ELECTION

HOT CONTEST OVER LEGISLATIVE SEAT.

Abel Charged With Being Old-Time Democrat With Anti-Prohibition Proclivities.

Politics is not adjourned in historic Rhea, and there is a warm fight on between R. P. Abel, of Dayton, and George W. Pogue, of Grayville, for this county's seat in the legislature. The verbal bout, talk as talk can, is on between the candidates and their friends. Mr. Abel is a well known insurance man of Dayton, and Mr. Pogue is a business man, only having come to Grayville about two years ago. The two were candidates in the democratic primary, and Mr. Abel won out. However, Mr. Pogue seems to have had a change of politics and asked for the republican nomination which was given him. Wishing to assure himself of as many votes as possible, Mr. Pogue next became the independent candidate also.

The friends of Mr. Pogue are charging that Mr. Abel is an old-line democrat and will not favor the prohibition amendment, having been a staunch follower of "Blaine." Patters in his second bitter campaign for governor, Mr. Abel, however, insists he will vote for the suffrage and prohibition amendments to the constitution and all other legislation favoring the winning of the war.

## SELECTIVE MEN SENT TO CAMP WADSWORTH

HUN HUNTERS LEAVE WITHOUT OSTENTATION.

Few Friends Bid Future Soldier Farewell at Station in Early Morning Hours.

One of the largest quotas of registrants sent by the local draft boards to camp left this morning at 6 from the terminal station for Camp Wadsworth, Spartanburg, S. C., where they will be assigned to general military service. The quota was composed of 158 men but several of the recruits were not sent on account of sickness.

In all, 155 men entrained for camp. Of this number 105 were furnished by county board No. 2. The board was to have sent 108 men and that number reported for roll call, but it was discovered that one of the men had contracted influenza and he was sent home. City board No. 1 sent twenty-three men. City board No. 2 was to have sent fourteen recruits but at the last minute two were disqualified by the examiner. County board No. 1 furnished its full quota of fifteen men.

The departure of the men was quite different to the usual boisterous farewell celebration given to so large a number of departing "hun hunters". On account of the epidemic of influenza no celebration whatever was held for the men at the Grand Ocean cafe where they took breakfast. From the cafe they proceeded to the station where they entrained after bidding farewell to their friends and relatives. At the station only close friends and relatives, together with the members of the draft boards, being present.

Following the big quota of white general service men, the three negro limited service men, who were sent by county board No. 2 for duty in the navy, departed at 10:15 for the mobilization station at Norfolk, Va.

SPRINKLE BY MOTOR  
Commissioner Bass Reports Purchase of Street Cleaning Machinery.

Chattanooga streets are soon to have the services of a modern motor-driven street sprinkler, Commissioner Bass reported at Tuesday's commission meeting. It is understood that the motor-driven type is to be purchased, which is a more efficient machine than that pulled by horses, and there is also a savings in labor which is a considerable factor at the present time.

At the request of the Crittenton home trustees the \$5,000 appropriation made for the purchase of a new building to be made available immediately. In the absence of City Attorney Carden, Mayor Littleton was instructed to draw up the necessary ordinance.

An additional \$1,000 was allowed to Erlanger hospital over their regular budget on account of the drain caused by the treatment of influenza patients and diseased women.

Commissioner Betterton submitted for approval of the board his action in paying the salaries of the city police and fire departments while absent on account of sickness. The action was approved.

## LABOR SHORTAGE LESS

Supt. Watts for Work Than Before on Application for Work Than Before.

According to Supt. Watts, of the United States free employment bureau, the labor shortage which has been so acute in Chattanooga's many foundries and industries has been lessened in a noticeable degree in the past few weeks, and is slightly improved. The superintendent said Monday that more laborers had applied for employment than for any other day in the last three weeks. The vast majority of the applicants were white men and were placed principally in the foundries and factories of the section. There is yet a great demand for labor in all the industrial plants. A large number of women, including both white and black, were given employment in factories and stores. The number of women applicants is said to be increasing daily and there are now a large number employed locally. To better handle the colored applicants for employment, Supt. Watts said he has made arrangements to open a sub-employment bureau, which is to be run entirely by negroes for their benefit. Mr. Watts is just awaiting official orders to establish his new station, which he expects will be received very soon. The new station is to be located at 204 East Ninth street, and will be furnished with a Chevrolet automobile belonging to E. I. Trumbull. Supt. Watts was employed at the Hart garage and had been acting as the Trumbull chauffeur. He asked the foreman in charge of the garage on Sunday afternoon to let him take the car out. Permission was refused and he left the place and phoned for the car in Mr. Trumbull's name. He did not return until midnight, and a warrant was taken out for his arrest. The boy almost in tears said he would not have taken the car had it not been for his chum insisting, but, nevertheless, he was bound over to the grand jury.

## ADVANCE IN RANK

Fred N. Lowry, of 114th Machine Gun, Promoted in France.

News has been received at Valley Head, Ala., by R. D. Lowry, cashier of the Bank of Valleyhead, that his brother, Fred N. Lowry, of the 114th machine gun battalion, had been promoted to the rank of second lieutenant. He enlisted in this unit under Maj. J. P. Pyffe, and was trained at Greenville, S. C.

Lieut. Lowry is also a brother of J. B. P. Lowry, and his father was a Confederate soldier of the real fighting type, so the young lieutenant inherits his soldier qualities.

## TAKES JOYRIDE

As a result of being induced to take two of his wayward chums joyriding last Sunday night, Clifford Spicer, a white boy of about 17, faced Judge Leming in police court Wednesday morning charged with the theft of a Chevrolet automobile belonging to E. I. Trumbull. Spicer was employed at the Hart garage and had been acting as the Trumbull chauffeur. He asked the foreman in charge of the garage on Sunday afternoon to let him take the car out. Permission was refused and he left the place and phoned for the car in Mr. Trumbull's name. He did not return until midnight, and a warrant was taken out for his arrest. The boy almost in tears said he would not have taken the car had it not been for his chum insisting, but, nevertheless, he was bound over to the grand jury.

## CHIEF COLE HEARS "CALL OF THE WILD"

TAKES "WHITE LIGHTNING" TRAIL IN MOUNTAINS.

Provost Guards Destroy Moonshine Factory and Find Evidence of Others.

Capt. Henry S. Cole, provost marshal for this zone, together with six revenue men, headed by John F. Camp, of Atlanta, and ten provost guards took the moonshine trail Monday at midnight and Wednesday morning returned and reported the destruction of one large still and location of site of two others that had been in recent operation. Capt. Cole stated that the trip was void of any special incidents except that he and his party enjoyed the ruggedness and picturesque of the mountain. The party went into three states—Tennessee, Alabama and Georgia. Several days ago Capt. Cole was given the tip that stills on Sand mountain in Georgia were in operation. Laying his plans carefully he, with Mr. Camp and his men, proceeded Monday night to hunt the moonshine factories. Early Tuesday morning the party ran up on a still that had been in recent operation and it was destroyed. There were no signs of human habitation any where and the moonshiners seemed to have been captured from the pale face by savannah and other friendly tribes of birds and animals.

Moving along the lonely trail of the mountains cautiously and with care the party next came upon a secluded spot which had not long since been the foundation of the "white lightning" industry. This place showed signs of recent habitation, but was void of it when visited. Another spot of the same character was located during the day. There were no clues of the members of the unlawful makers of the "white lightning" here. The party continued their search which was without results, as one still had been found and destroyed.

Capt. Cole stated that he had some plans which he would carry out later and which he was sure would net him a still or two and probably the owners. The party returned to Chattanooga late Tuesday night.

## WAR WORK CAMPAIGN

Tennessee Will Go Ahead With Work as Scheduled on Change in Plans.

The rumor current in the city that the united war work campaign set by President Wilson for the week of Nov. 17-24, 1918, would be postponed because of the influenza situation is mistaken. The campaign will most assuredly be conducted at the time set, according to J. H. Haman, publicity director for the U. S. C. A. at Fort Oglethorpe, who is handling the publicity for the campaign in Chattanooga and Hamilton county.

"The only change in the campaign could be postponed would be by presidential order," said Mr. Haman Wednesday, in denying the rumor. "The time for the campaign was set by the president, and he is the only man with authority to call it off. Agitation for a postponement just the week thrown into the balance against the success of the campaign."

"Nothing is known of any proposed postponement at Washington," said the southeastern department at Atlanta, nor at New York. The preliminary work for the campaign is being carried on without hitch, and all the much thrown into the balance against the success of the campaign."

For Women Who Worry  
Worry and "the blues" are usually linked together, and in many cases are due to some functional disturbance, which if not corrected may lead to more serious ailments. More outdoor life, sleep, water-drinking and a few weeks' treatment with that good old-fashioned root and herb remedy, Lydia E. Pinkham's Vegetable Compound, will revitalize and strengthen the system and work wonders for any woman. If you are prone to worry and "the blues" try it.—(Adv.)

## SAFE ARRIVAL OVERSEAS.

Nick Pursey and Lawrence Keener, of East Lake, Ready to Battle Hun.

News has been received here of the safe arrival overseas of Nick Pursey and Lawrence Keener, of East Lake, Young Pursey and Keener are with the S. O. S. division, having attended the Mechanical Training school at the University of Tennessee during the months of July and August.

## WILL CUMMINGS BETTER

Hope Entertained That Former Judge Will Recover from Injury Soon.

Word was received in the city Tuesday from Walter Cummings, stating that his brother, former County Judge Will Cummings, was making good recovery, and that he was much improved and would be home when his condition permitted.

It will be remembered that the accident which necessitated the amputation of Judge Cummings' leg was the result of his jumping from a runaway automobile while he and a party were hunting in Idaho.

## A Wartime Recipe For Gray Hair

Gray, streaked or faded hair can be immediately made black, brown or light brown, whichever shade you desire, by the use of the following remedy that you can make at home:

Mix a small box of Orlex powder at any drug store. It costs very little and no extra to buy. Dissolve it in water and comb it through the hair. Full directions for mixing and use come in each box.

You need not hesitate to use Orlex, as a \$100.00 gold bond comes in each box guaranteeing the user that Orlex powder does not contain silver, lead, zinc, sulphur, mercury, aniline, coal-tar products or their derivatives. It does not rub off, is not sticky or gummy and leaves the hair fluffy. It will make a gray-haired person look twenty years younger.—(Adv.)

## FOR COLDS AND GRIPPE

DOCTORS FIND REMEDY

Physicians and druggists are elated over the fact that they at last found a genuine and dependable remedy for colds, sore throat and la grippe. For years they have depended chiefly upon the old style calomel, which is certainly fine, but unfortunately many people would not take it because of its nauseating and dangerous qualities.

Now that the pharmaceutical chemists have perfected a nausealess calomel, called "Calotabs," whose medicinal virtues are vastly improved, the doctors and druggists are claiming that Calotabs are the ideal remedy to abort a cold over night and cut short an attack of sore throat or la grippe. They are also finding it most effective as the first step in the treatment of pneumonia.

One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea, no the slightest interference with your eating or your work and pleasure. The next morning your cold has vanished and your whole system is purified and refreshed. Calotabs are sold only in original sealed packages; price thirty-five cents. Your druggist recommends and guarantees them by refunding the price if you are not delighted.—(Adv.)

SHEET METAL WORK  
7th and Chestnut Streets Phone Main 1895

## MENTH-ALBA MAY PREVENT AN ATTACK OF INFLUENZA

Insert Little Pieces Up Nostrils Several Times a Day. Keep the Nose Open.

Influenza or grippe is contracted through the nose. The disease breeding germs are taken into the lungs with each breath you take. When you come in contact with a person suffering with influenza it's vitally important that the mucous lining of the nose should be in a healthy condition and something should be done to destroy the germs. You should also keep the nose open.

One of the best ways to prevent influenza is to insert little pieces of Menth-Alba up the nose several times daily. This snow-white antiseptic compound will open up the nose quickly and destroy any disease breeding germs which may be lurking there.

Menth-Alba is also fine as a first aid in Pneumonia, for Croup, Catarrh, Headache and Sore Throat.

Don't go another day without a jar. Don't wait until you feel the symptoms of influenza. Get a jar today. Druggists recommend and sell this snow-white compound in 25c and 50c jars.—(Adv.)

## RHEUMATISM--THE INVADER S. S. S. ITS CONQUEROR

Meet Rheumatic Attack With Famous Remedy.

Be assured your Rheumatism will master you unless you conquer it. This disease, beginning its attack slowly and with little notice from its victim, gradually increases in violence until the whole system is involved. The patient often becomes a wreck or a cripple. It attacks in various forms—Articular, Muscular and Inflammatory. No part of the system is immune to its influence. The pains attack every portion of the body, and, when the disease gets a firm hold upon the system, the patient becomes helpless.

But the origin of this most painful of all diseases is in the blood, and no amount of external treatments can overcome the trouble. Rubbing with liniments and ointments may suffice temporarily in allaying the pains, but the trouble is deep in the muscles, joints and ligaments, and can be driven from the system only through the use of a medicine that will attack the disease in all parts of the body, and that is what S. S. S. does.

S. S. S., being purely vegetable, and containing not one particle of mineral, is most welcome to the stomach of the Rheumatic sufferer who has long been dosed with ineffectual remedies.

Why should you continue to suffer from this disease when the remedy is available? Do not delay purifying your blood and getting rid of your pains. Go to your nearest drug store, get a bottle of S. S. S. Start a course of treatment that will bring real relief, and begin your counter-attack NOW against insidious and pain dealing Rheumatism.

For a free booklet on Rheumatism and its treatment, write our Medical Department, explaining fully about your own case, and our own Chief Medical Adviser will give you absolutely free many helpful suggestions as to diet and proper treatment. Address Medical Director, 413 Swift Laboratory, Atlanta, Ga.—(Adv.)
